hundreds of others. The feature which impressed her most was the immense variety and completeness of every line of footwear and the distinguishing character or individuality of every style. She was one of those particular persons to whom distinctiveness appeals. There are thousands like her who are already patrons of this shoe shop and who appreciate our efforts to show "proper" footwear.

No better evidence of our leadership than the fact that we have supplied the footwear to nearly all of those who have participated in the notable weddings in social circles during the past few weeks and to nearly all of those who will take part in those weddings to take place during the next few weeks. The variety of colors in evening, wedding, and reception slippers is perfectly intact, embracing over a hundred shades.

The same completeness is to be seen in carriage and boudoir footwear. Every sort of boot or shoe needed for the trousseau is here.
